January

Attorney General John Ashcroft*

US Department of Justice+

950 Pennsylvania Avenue, NW

Washington, DC 20530

Dear Mr. Ashcroft:+

I am writing this letter to show support for the

Microsoft Corporation in light of the

recent litigation against them and pending settlement. I firmly believe that Microsoft has done absolutely nothing wrong and therefore should not have to undergo any further litigation. I do not believe that Microsof

t ever had a monopoly. I think that adding new

features to your products in order to stay competitive in a fiercely competitive industry should not be considered a monopoly, but a good business practice. To give a loose

comparison, I think that if a car

manufacturer wishes to make its cars more attractive by /

adding features like the navigational system or a special stereo, they should be allowed to do that with no penalty. I also believe that without these little "extras" companies,

including Microsoft w

ould not do as much business as they do.

Microsoft has been more than accommodating in their recent settlement with the

government. In fact, in my opinion they have already given too much considering that they have done nothing wrong. I think that Mic

rosoft's willingness to comply is best

illustrated by their acquiescence to a "Technical Committee" that monitors their

compliance with the settlement and will assist in the resolution of any disputes that other companies or states may have with Microsoft.

I also believe that Microsoft's Internal

Interface Disclosure is a sure sign of the fact that they are willing to try and resolve this issue.

I look forward to a swift end to this entire issue. I believe that Microsoft has given on many issues without getting much in return and I believe that they have done so with a spirit of

good business practice in mind. I appreciate your consideration of this matter.

Thank you. %

Sincerely,!

enry Yeh
